
This document is intended to provide information to the CATPA Board of Directors and Grantee's for strategic planning in the FY16 CATPA Grant Application Process.

This information was acquired from the Colorado Stolen Vehicle Database Repository, which was funded by CATPA.

Data used in this report is inclusive of vehicles reported to the Colorado Crime Information Center with a date of theft between January 01, 2014 through December 31, 2014. Information contained in the Stolen Vehicle Database Repository is considered dynamic, as modifications, changes and amendments to the stolen vehicle records are made on a daily basis.

Stolen vehicle records were screened for accuracy and normalized for standardization prior to use in this analysis.

The actual number of auto thefts in Colorado is likely higher than purported. Specifically, the author is aware that many felony auto thefts, car-jackings thefts are not received into the Stolen Vehicle Database Repository. In addition, local law enforcement agencies may not have entered other stolen vehicles into the Colorado Crime Information Center, due to a stolen vehicle recovery occurring prior to completing the jurisdiction's reporting and processing procedures.

Department of Public Safety

2014 Colorado Auto Thefts

Source: Colorado Stolen Vehicle
Database Repository

1/15/2015

Robert Force

Where did thefts occur?

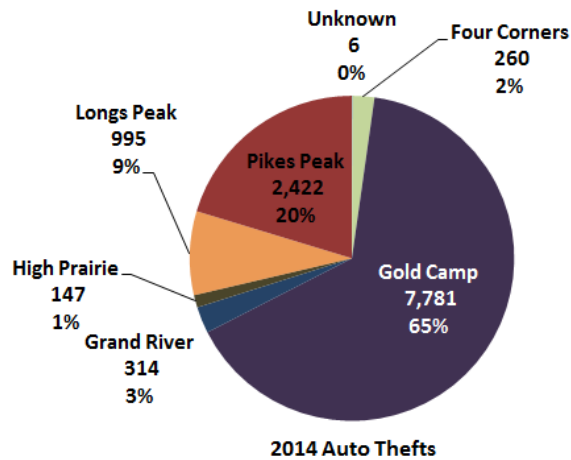

In 2014 Colorado experienced a 5.49% increase in auto theft from the previous year. This is a minimal increase as compared to 2012's experience of 13% rise from 2011. Regardless, it is concerning that auto theft is on a gradual rise since 2011. The percentile increases may be arguable, depending upon reference sources (e.g., UCR, NIBRS, or NICB), however all sources in 2013 clearly demonstrated an increase. It will be interesting to compare other auto theft data sources; however these sources will not be available for the next several months.

CATPA Area Map

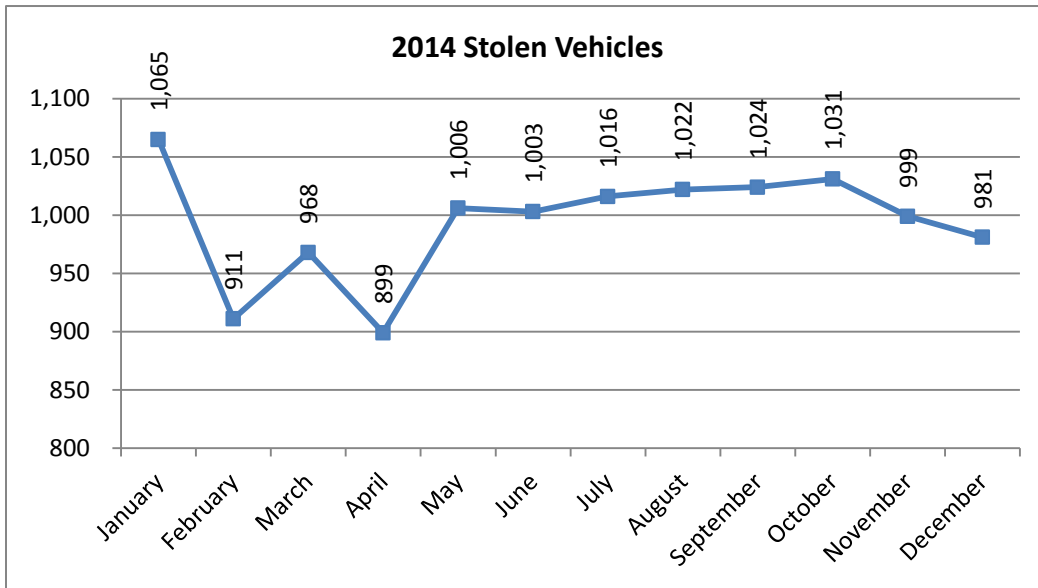

- Of all 2014 vehicle thefts, 84% of the vehicles were applicable to the CATPA assessment fee. This was determined based on the style of vehicle pursuant to the CATPA statute.
